

IPM LINK MYOB

WHAT DOES IPM LINK DO?

IPM is designed to operate as a standalone Construction Management solution within Microsoft Dynamics 365® with the ability to be integrated with leading Accounting /ERP systems. IPM Link facilitates the exchange of critical data between IPM and the accounting system in order to provide quicker and more convenient access to information whilst staying within the same environment.

KEEP YOUR ACCOUNTING SYSTEM BUT UPGRADE YOUR CONSTRUCTION MANAGEMENT

With IPM Link you don't need to go through the process of changing or upgrading your accounting or ERP system in order to have IPM Construction Management installed and integrated. This means less time and money is spent on the implementation and quicker software adoption by the staff.
